

Dear Valued Patient:

We have been thinking about you and hope that you and your family are safe and healthy. Everyone has been through a lot and is ready to start normal routines again. As we welcome you back to our office, we want to reassure you that your safe treatment here is our number one goal. We are following the most recent advice from the CDC and our professional organizations to make changes to keep you, our other patients, and our staff, safe from infection.

Some changes include:

- Our staff will ask you screening questions before your appointment.
- Please use the hand sanitizer that we have available when you come into the office.
- We have removed hard-to-disinfect items in the waiting room to make it easier to clean frequently during the day.
- We are allowing more time between appointments to manage social distancing between patients.
- We also ask that you come into the office alone. If necessary, one caregiver or family member may come in with the patient.
- We may take your temperature before your appointment and ask you about your exposure to the Covid 19 virus.
- You may be asked to use a mouth wash prior to treatment.
- We ask that everyone who enters the office wear a face covering or mask.
- There may be other changes as we try to keep social distancing to six feet. We are happy to answer any questions you may have about the steps we are taking to keep you, and every patient, safe in our office. Please call our office at (734) 525-2552 or visit our website at www.dentalsmilesdds.com if you have any questions or to make an appointment.

We have installed medical grade air purification that utilizes HEPA, charcoal and UVC lights to kill viruses. Please like us on Facebook to get the most current updates and news. Thank you for your understanding. We look forward to seeing you soon.

Sincerely,

Dr. Kristal and Staff
